PROFESSIONAL SUMMARY

Information Technology student at Cebu Eastern College with two years of coding experience and hands-on project work in web development and software systems. Built a role-based attendance system, a portfolio builder, a task manager, and responsive portfolio websites. Coursework includes programming, databases, computer networks, systems analysis, and software engineering.

EDUCATION

Bachelor of Science in Information Technology

Cebu Eastern College | Cebu City, Philippines | Currently enrolled

Senior High School Graduate

Information and Communications Technology (ICT) Strand

TECHNICAL SKILLS

Programming Languages: Java, C#, C, JavaScript (learning)

Web Development: HTML, CSS, PHP, Laravel, Blade, Vite, Tailwind CSS

Databases and Platforms: SQL, PostgreSQL (Supabase), Firebase, Firestore

Developer Tools: Git, IntelliJ IDEA, Visual Studio, Three.js

PROJECTS

AttendTrack | Student Attendance Management System | Mini Capstone

- Built a digital attendance system for teachers and students to replace paper attendance logs.
- Implemented session-based authentication, role-specific dashboards, attendance marking, student management, date filtering, record editing, and attendance summaries.

PortFold | Portfolio Builder

- Built a full-stack application for creating, editing, previewing, and publishing personal portfolio websites with three templates.
- Added an interactive Three.js workstation to the Creative template.

Technologies: Laravel, Supabase, Three.js, Tailwind CSS | Source: github.com/johnfrancisprimor21-tech/PortFold

Personal Task Manager | Full-Stack Web App

- Built a responsive task manager for creating, editing, and deleting tasks, setting due dates, and tracking pending or completed work.

Technologies: Laravel, PHP, Blade, Supabase PostgreSQL | Source: github.com/johnfrancisprimor21-tech/task-manager

DevFolio | Personal Portfolio

- Created a responsive portfolio website with HTML, CSS, and JavaScript, including theme switching, scroll-reveal animations, and a project case study modal.

Technologies: HTML, CSS, JavaScript
